

Senator Simmons Says—

"Tariff Will Cost Consumers Three BILLION a Year"

SENIOR

It will be gratifying to know that the customers of The Freeny Company will not pay one cent of this three billion.

JUNIOR

Increasing the cost of woollens means higher clothes prices. Fortunately we bought heavily this season and have a good stock on hand; also have thousands of yards contracted for future delivery bought before the rise.

We could make more by holding these woollens for the rise, but we are tailors, not speculators.

PRICE OF CLOTHING BOOSTED

Millions Increase On Clothing

Thus Senator Simmons takes wool clothing. The average ad valorem rate in the Underwood-Simmons tariff for revenue only law was 31.6 per cent. The average rate in the present Senate bill is 75 per cent. Based on annual consumption or use of clothing, the tariff protection to domestic manufactures under the existing tariff law was \$265,000,000; under the Senate bill it jumps to \$629,000,000. The estimated total cost to consumer under the Underwood bill was \$477,000,000; under the Senate bill it will be \$1,132,000,000—an increased cost of \$655,000,000. Using a similar process of figuring, the sugar bill of the American consumer may be increased by \$57,000,000. Sewing machines, free under the Underwood-Simmons tariff act, may cost \$23,000,000 more in the aggregate under the Senate bill drafted. It possibly will cost \$128,000,000 additional per year to buy cutlery; \$22,000,000 for buttons, such as go on father's trousers, or the baby's dress; \$553,000,000 will be added on cotton manufactures and \$655,000,000 on wool manufactures.

A thousand new satisfied customers are worth more to us than future profits in stock. To induce 1,000 men to try our service we are making it an object to buy now before we are forced to raise our prices.

Here Is Your Opportunity!

Suits and Overcoats to Your Individual Measure

Priced as Low as \$32.50

Many We Cannot Duplicate Now for Double the Price
